

Invest in the Future of Cinematic Nightlife

"AI is certainly the future and knowledge of AI is the power." — Roy Webb

From Failing Theaters to Future Nightlife Success

Bizarre Rave transforms underused movie screens into profitable immersive venues powered by cutting-edge AI and patented 5D projection tech. No headsets. No major buildout. Theater spaces are ready for evolution and Roy Webb Productions is leading the transformation.

This Isn't Just Entertainment. It's a Platform.

Bizarre Rave transforms underused screens into immersive, AI-powered, high-revenue experiences. And our app turns every fan into a promoter. New audiences and new revenue — every weekend.

The Urgent Problem – Why Theaters Must Evolve

Gen Z and Millennials are not returning to theaters. Online streaming dominates. Thousands of 70–80 seat auditoriums sit mostly empty, generating zero return. We revitalize them with standing-room energy and AI-powered shows.

The Disruptive Solution – Bizarre Rave™

- Seats removed and a standing dance floor installed
- AI-generated visuals projected in 360° with full 5D sound and effects
- Featuring the world's top EDM DJs in immersive weekly shows
- Theaters host 6 shows each weekend (Friday/Saturday – 8PM, 10PM, 12AM)
- 50/50 split of all ticket, bar, and merchandise revenue
- No construction. No disruption to core business

Global Market, Local Activation

52% of the global movie theater market is made up of multiplex venues. 40,000+ cinema screens in North America, many underused. Roy Webb Productions reactivates existing venues without interfering with regular screenings.

Market Advantage – Why It Wins

- Gen Z craves immersive experiences over traditional media
- EDM is a \$4B+ global industry
- Ticket prices: \$35 vs. \$200+ for concerts
- Each event adds value to our content library
- Our platform grows virally with low marketing cost

The App = The Marketing Engine

Our app is the heartbeat of Bizarre Rave:

- Fans suggest DJs and music
- Vote on immersive themes
- Connect with friends
- Share and post content
- Drives participation and growth

How the Business Model Works

- 6 shows per weekend
- Up to \$9,000 gross per night
- 50/50 revenue split after local ops
- Roy Webb Productions provides content, crew, app, audience
- All shows become part of our licensed media library

Technology-Driven Edge

- Patented 360° 5D Projection System
- Sora (OpenAI), Runway, Pika, Kaiber, Midjourney, ElevenLabs
- Each show is scalable and uniquely immersive

The Investment Opportunity

Roy Webb Productions is raising angel investment to:

- Launch proof-of-concept theaters
- Fund core team, creative ops
- Finalize app and expand immersive content
- Execute national and international rollout

Why Now?

- Theater chains need new revenue
- Nightclub industry is ready for disruption

- Gen Z demands immersive, in-person experiences
- AI has made scalable visual content a reality
